

CHAPTER 9 – DESIGN GUIDE

9.21 TANK PROGRAM GUIDE

A. GENERAL

1. OFFICE OF GENERAL SERVICES - BUSINESS UNIT 3: SERVICE CONTRACTS/TANK PROGRAM:
 - a. Contacts:

Rich Longdaue: (518) 581-9259; Richard.longdaue@ogs.ny.gov
Eric Gould: (518) 474-6548; eric.gould@ogs.ny.gov
Tom Valentini: (518) 473-8284; thomas.valentini@ogs.ny.gov
2. Service Contract Program: The Service contract program is a good resource for small repair projects with basic replace-in-kind type of scopes. The current contracts are in place until January, 2013. A map showing the contract numbers and contractors follows. [Tank Program Regions Map](#)
3. Tank Program:
 - a. Environmental Remediation Design Consultant Contracts (Statewide):
 - 1) Description: Environmental remediation services include, but not be limited to, site assessments, providing remediation recommendations, remedial system design, remedial system operation and maintenance, preparation and updating of Spill Prevention Control and Countermeasures (SPCC) plans.
 - b. Construction Contractors: Dan Blair, Construction Contract Project Manager:
 - 1) The Work may include any of the following items or other related work as indicated on the drawings and specifications or as directed:
 - a) Remove and dispose of existing fuel from tank.
 - b) Provide temporary fuel storage tanks.
 - c) Excavate, and remove or abandon tank.
 - d) Remove and dispose of contaminated soil, and contaminated water.
 - e) Participate in on-site and/or off-site remediation of contaminated soil and water.
 - f) Provide new tank, or install tank furnished by the State.
 - g) Provide piping and accessories.
 - h) Sampling and laboratory testing of soil or water.
 - i) Test new tank and piping system for leaks.
 - j) Test and/or calibrate all associated new equipment and systems in accordance with manufacturer's instructions.
 - k) Connect fuel system to facility.
 - l) Backfill excavation.
 - m) Replace or repair concrete pads, concrete or asphalt paving, and lawn areas.
