CONTRACT AWARD PRICE LIST #1 of 6

Title	:	Group 38614 - Traffic Safety Equipment - Highway Roadway Safety Barriers (Crash Cushions, & Truck Mounted Attenuators: Systems, Parts & Accessories) Classification Code(s): 25, 30, 46 & 92 (Statewide)
Award Number	:	21253
Contractor	:	Eberl Iron Works, Inc.
Contract #	:	PC64073
Toll Free Order #	:	(800) 285 - 3056

Price List #2 – Updated: September, 2011

Description

Traffic Safety Equipment includes crash cushions and a variety of barricades, which are precautionary barriers which passively assist in channeling traffic, while also preventing vehicles from impacting major structures such as bridge supports and lighting and utility equipment. Also included are attenuators which serve to protect the rear of large slow moving service vehicles and trailers or stationary structures in the event of a collision, while also absorbing and dispersing the force of the impact so as to concentrate the accident zone and minimize the effect on additional lanes of traffic. Additionally, they are used to assist and protect our road crews in construction and service zones and are important tools for ensuring safe travel on roads and highways throughout the State of New York.

Additions to this edition are designated in [Blue](#).
