----------------------	---	--------------------	---

Please be advised that Hazardous Substance Superfund financing rate (petroleum Superfund tax rate) on domestic crude oil and imported petroleum products will be adjusted for calendar year 2024.

Effective January 1st, 2024 the rate will increased by \$0.0001 per gallon resulting in the Superfund tax per gallon as indicated in the table below.

As per the terms and conditions stated in Section 2.12 – Price, Contractors have the option of including the after-imposed tax as a separate line item at the price per gallon listed below for the fuel type. The tax per gallon was truncated to four decimal places from the 16.4 cents per barrel of the taxable fuel.

Conventional Gasoline (Regular, Mid, Premium)	\$ 0.0036
OPRG (E) Gasoline (Regular, Mid, Premium)	\$ 0.0036
E-85	\$ 0.0006

Please note: Contractors may itemize fees, taxes, or other charges in an invoice, but the total price of the fuel and itemized charges must be equal to or less than the OGS posted price. The Superfund tax is the only allowable charge in addition to the total fuel price per gallon.

All other terms and conditions of the contract remain the same.
