Project Based Information Technology Consulting Services

Procure IT Project Consultant Services

August 30, 2016

Agenda

Today you will learn:

- How to use this contract
- Where to find helpful resources
- Who to contact for questions

Information Technology New Contract Suite

Got Questions? Contact Us.

Designated Contacts

- Project Based IT Consulting Services:
PBITS.AuthorizedUsers@ogs.ny.gov
- Manufacturer Based IT Umbrella:
MfrUmbrella.AuthorizedUsers@ogs.ny.gov
- Distributor Based IT Umbrella:
OGS.sm.SSTTechnology@ogs.ny.gov

What is a restricted period?

This is the time between when a solicitation is released and the contract is awarded. During this time, make sure to direct your questions to the designated contacts.

Project Based IT Consulting Services Overview

What Can You Use This Contract For?

- Also known as PBITS, this contract is used to obtain consulting services for a project with payments made for deliverables, not on an hourly basis
- Projects range from the development of proprietary software solutions and customized training to project management
- Contractors are able to qualify for three categories, or lots, based on their qualifications

What Can You Use This Contract For?

Projects Included

- Tech. architecture advisory services
- Business analysis
- Proprietary software application development/customization, programming and integration
- Data information management (migration, conversion, manipulation, integration)
- Project management support services
- Data categorization
- Implementation of open-source software

Projects Not Included

- Staff augmentation or data entry services
- Hardware and software maintenance and support
- Prepackaged training courses
- eLearning
- Buying equipment or off-the-shelf software
- Services such as network provisioning, voice services, or video bridging
- Cloud based or “as a service” offerings, including, but not limited to SaaS, IaaS, PaaS, and XaaS

PBITS Contract Structure

It's broken into lots based on anticipated project cost.

- Lot 1 is for MWBE, SDVOB and small businesses
- Lot 3 includes higher insurance requirements

Where We Are

By the Numbers

- 114 contracts awarded
 - Lot 1: 52
 - Lot 2: 95
 - Lot 3: 21

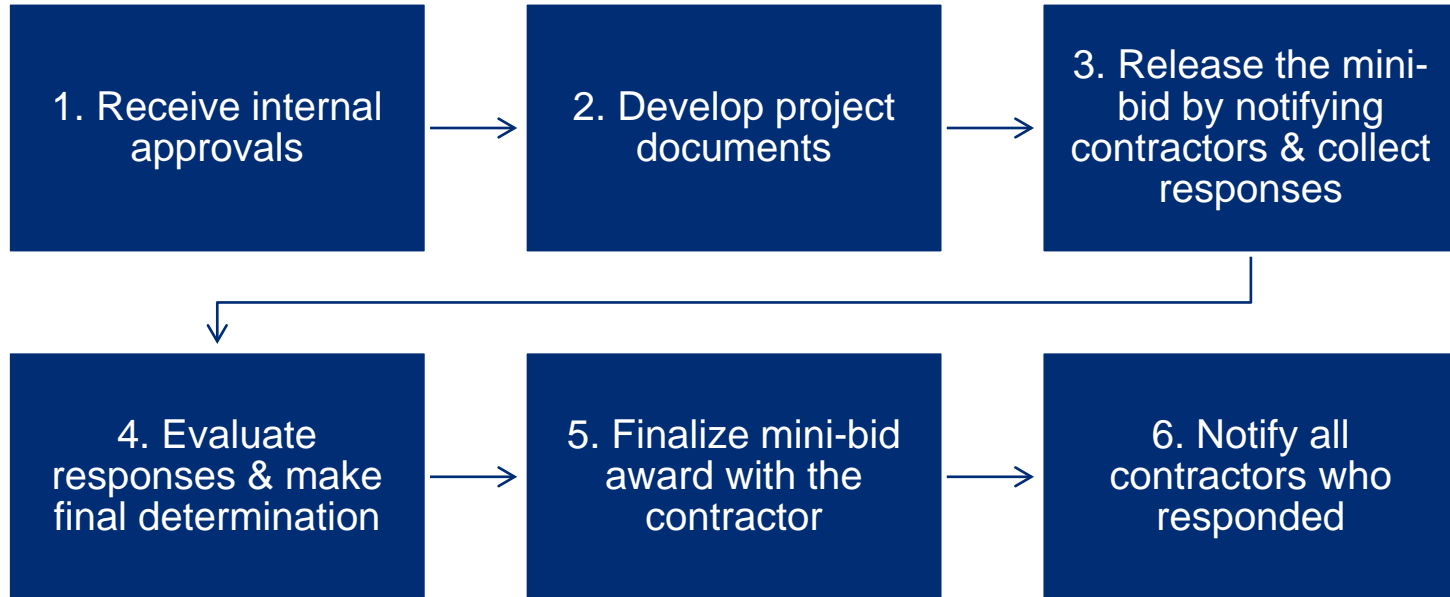

Training & Resources

- Training for contract users is underway
- Training for contractors coming soon
- Online resources being developed

Key Contract Components

- For consulting services related to a project only
- Each project has a maximum duration of **36 months**
- Maximum not-to-exceed pricing
- Standardized contractor requirements, terms, and conditions
- The contract includes periodic recruitment, making the opportunity for more contractors and more competition

PBITS: Process Overview

1. Receive Internal Approvals

- You must adhere to:
 - Statutory requirements
 - Procedures of the PBITS contract
 - Internal policies and procedures (B1184, PTP, ITIR, etc.)
 - Federal, state, and local statutes as applicable

2. Develop Project Documents

- Prepare a project scope of work that includes:
 - Budget
 - Timeline (including milestones)
 - Deliverables (including products and reports)
- All of these become part of your procurement record.

Use templates to navigate this process:
www.ogs.ny.gov/purchase/snt/awardnotes/7360022772TemplatePage.pdf

2. Develop Project Documents – Scope of Work

- Your **scope of work** should include:
 - What your organization is going to provide
 - Roles and responsibilities: project lead, approvals, contacts, etc.
 - Workplace logistics: parking, network connection, access to technical staff, computers, etc.
 - What the contractor will provide
 - Staffing, charts, tools, supplies, etc.
 - When the work will be completed (8am-4pm, 9am-5pm, afterhours, etc.)
 - Steps, phases, and deliverables this project will include
 - Including what success for each deliverable looks like
 - Risks and the mitigation strategies
 - Payment structure

2. Develop Project Documents – Scope of Work (continued)

A good scope of work includes:

- Milestones, timeframes
- Dependencies
- Roles and responsibilities
- Background checks, additional insurance
- Deliverables / payment points
- Key personnel interviews
- Location where work will be performed
- Risk projections and mitigation strategies
- Uptime / Response time
- Security conditions
- Disaster recovery, business continuity plans
- Data transfer services
- Chargebacks, liquidated damages and/or penalties

2. Develop Project Documents – Deliverables

- As you **develop project deliverables** make sure they are clear and objective. All parts must be defined and expectations set.
- Acceptance and rejection criteria must be clear
 - What are the timeframes for acceptance, and
 - What is the exact process for rejected deliverables and associated timeframes for resubmission

2. Develop Project Documents - Timeline

- As you **develop your project timeline** consider the following:
 - Shorter overall or expedited timeframes may cost more
 - Think carefully about your milestones (invoices or batches of hours are not appropriate milestones)

2. Develop Project Documents – Evaluation Criteria & Method of Award

- Your project documents should also include **criteria to evaluate the mini-bid responses**
 - The criteria and weighting you use must be finalized prior to the mini-bid release
- Method of Award is based on Best Value
 - Technical evaluation – maximum 70%
 - MWBE, SDVOB, and or SB (up to 5% of Technical eval)
 - Cost evaluation – minimum 30%

2. Develop Project Documents – Final Thoughts

- The scope of work defines the job for the contractor. It should clearly document the :
 - Project requirements
 - Timeline and Milestones
 - Deliverables
 - End product (What success looks like)
 - Required documents and reports that are expected to be provided by the contractor
 - Roles, responsibilities, risks, and expectations

3. Release the mini-bid by notifying contractors & collect responses

How to Distribute

- Email your mini-bid documents all contractors in project lot
- On the contract page, select the “Mailing List by Lot” document to find email addresses by lot:
 - www.ogs.ny.gov/purchase/snt/awardnotes/7360022772can.HTM

Keep in Mind

- Minimum timeframes from the mini-bid release to the bid opening date:
 - Lot 1: 5 business days
 - Lot 2: 10 business days
 - Lot 3: 15 business days

4. Evaluate responses & make final determination

- Evaluate the responses based on the mini-bid requirements
 - Evaluation tools cannot be altered after the mini-bid release
- Review hourly rates and reject any mini-bid responses that includes pricing above the “not-to-exceed” pricing in the contract
- You may want to do reference checks on past projects
 - Was the project on time?
 - Was the project on budget?
 - Were any liquidated payments assessed?
 - Did the final product meet or exceed expectations?
- Check the contract award page to make sure the tentative awardee has submitted all the required insurance documentation
 - If they do, you can proceed
 - If they don't, touch base with OGS to see if you should contact the vendor to advise them to submit the required documentation. You cannot make an award until they have met the contract insurance requirements

5. Finalize mini-bid award with the contractor

- This is where you have discussions with the tentative awardee so that you both have a clear understanding of the roles and responsibilities for the project.
- You should negotiate to get the best possible price.
- Once in agreement, proceed with final documentation requirements utilized by your agency (entity).

6. Notify all contractors who responded

- Notify the tentative awardee and all non-awardees of the mini-bid results in writing
 - email is acceptable

Document the Project

In case of audits, make sure to include the following as part of your final procurement record:

- Approved requisition or purchase order
- DOB 1184 attachment (for state agencies)
- Bid distribution and announcements
- Pre-bid conference sign-in sheet & transcript
- Bid protests & responses
- Blank solicitation documents
- Questions & answers
- Evaluation instruments
- Completed evaluation score sheets and evaluation summary
- Bid tabulation
- Bidders list
- Reasonableness of price
- Awarded bid
- Proposals received
- If less than 3 bids received, no-bid/no-reply survey
- Any contractor correspondences
- Rejected bids with justification
- Tentative award letter
- Agreement/contract
- Consultant disclosure forms

Project Based Information Technology Consulting Services (Statewide) Page 1 of 7

How to Use This Contract

This document provides the Authorized User general instructions on how to use the Project Based Information Technology (IT) Consulting Services Contract. These instructions assume the Authorized User has a good knowledge of IT project procurement methodology. An Authorized User must familiarize itself with the OGS Centralized Contract terms and conditions. Additional general procurement information is available on the OGS website.

Section 1. General Information

1.1 OGS CENTRALIZED CONTRACT SCOPE

The Project Based Information Technology Consulting Services Contracts streamline the procurement of Project Based IT Consulting Services for Authorized Users of NYS OGS Centralized Contracts. To purchase fixed-price deliverable services, an Authorized User must use the process outlined in the OGS Centralized Contract.

1.2 LOT VALUES

OGS Centralized Contracts have been grouped into three (3) lots (see table below). Lot placement was determined by the Contractor's response to OGS Solicitation #22772.

Lot Number	Project Value
Lot 1 Limited to NYS MWBEs, NYS SDVOBs, and NYS SBs	Up to \$200,000
Lot 2	\$200,001 - \$7,500,000
Lot 3	\$7,500,001 - \$25,000,000

The estimated project value as per Lot maximum value, (inclusive of any Enhancement budget) shall be used to determine which Lot must be used. If the option of an Enhancement budget is included, the total value of the Mini-Bid cannot exceed the maximum value of the Lot. Mini-Bids must be completed within a single Lot.

1.3 REQUIREMENTS

- A competitive Mini-Bid is required for every transaction under this Centralized Contract.
- Mini-Bids can be distributed to no more than one Lot per project.
- An Authorized User should prepare a detailed Statement of Work using the Mini-Bid template.
- The Authorized User must distribute the Mini-Bid to all qualified Contractors in the selected Lot (unless a Contractor has removed itself from consideration via the Mini-Bid Participation Interest Template).
- All services performed for an Authorized User shall only be performed within the continental United States.
- An Authorized User shall conduct its Mini-Bid in accordance with the requirements set forth in the How to Use this Contract document.
- E-mail addresses for all awarded Contractors in each Lot can be found on the OGS website at:
 - <http://www.ogs.ny.gov/purchase/srl/award/notes/7360022772can.html>, by clicking on the "Mailing List by Lot" link on the PBITS main contract page.
 - The direct link to this document is <http://www.ogs.ny.gov/purchase/srl/award/notes/7360022772MailingListEmails.xlsx>.
 - See the tabs on the bottom of the document to access the E-mail addresses for each Lot.

1.4 IN-SCOPE PROJECTS

Project Based IT Consulting Services required by an Authorized User must be obtained via a Mini-Bid process under this Contract. The Authorized User shall issue a Mini-Bid with a SOW for the required Project Based IT Consulting Services. A Mini-Bid may include, but will not be limited to, projects requiring: analysis, data classification, design, development, testing, quality assurance, security and associated customized training for IT based applications.

Additional examples of in-scope projects include, but are not limited to:

1. PROJECT OVERVIEW

(Provide a brief overview of the project. Much of this information may be extracted from existing documents such as Project Charter, Business Case, etc. Fields may be modified or updated as required.)

1.1 PROJECT BACKGROUND

(Please provide Contractors with a short summary of the project's history and proposed approach, such as:

- *Short statement of the business need and problem to be resolved*
- *Time line or review of major dates in the project development process*
- *Authorized User organizational units and key personnel involved in advancing the project*
- *Alternative solutions or implementation strategies evaluated)*

1.2 PROJECT PURPOSE / OBJECTIVES

(Identify the key end results that the project will achieve when successfully executed. Measurable performance indicators for anticipated benefits may also be listed here.)

1.3 BUSINESS PROCESSES IMPACTED

(Review major changes in the way business will be conducted once the project is complete (if any).)

Questions

Supplemental Information

Develop Project Documents – Gantt Chart

The initial plan should include a **Gantt Chart** of all go/no go points, sign off points, agency staff responsibilities, and prerequisites.

Example: A Scope of Work

An agency has ZYX database containing input from the last 10 years with approximately 8 million pieces of data. This data is broken in to tables with multiple variables. This project is to convert the data in to a new format based the agency's new platform. As part of this process it is expected the contractor to perform data consolidation and verification and place data validation measures on the specific fields in question. Current error rate in data is 63%. It is expected the new data set will contain no more than 1% error. It is expected the contractor will carry this work out within the continental United States (CONUS) at their own facilities using their own staff. Data verification issues will be brought to Joe Blank by email for resolution. This project must be complete by 1/1/2017.

Example: A Closer Look

Size of the project: An agency has ZYX database containing input from the last 10 years (approximately 8 million pieces of data) broken in to tables with multiple variables.

What overall success looks like: This project is to convert the data in to a new format based on the our new platform.

Risk: As part of this process it is expected the contractor to perform data consolidation and verification and place data validation measures on the specific fields in question. Current error rate in data is 63%.

Expectation: It is expected the new data set will contain no more than 1% error.

Resources: It is expected the vendor will carry this work out within the continental United States (CONUS) at their own facilities using their own staff.

Risk Mitigation: Data verification issues will be brought to Joe Blank by email for resolution.

Timeframe: This project must be complete by 1/1/2017.

Develop Project Documents - Timeline

- To get what you need, when you need it, **create a project timeline.**
- Your project timeline may include the following events:
 - Award date
 - Kick-off meeting (where data is exchanged)
 - Planning meeting (contractors give you their plan)
 - Plan approval with corrections
 - Full analysis of data with plan of correction
 - Data correction verified
 - Design of new data format is complete
 - Conversion into the new format is complete and verified
 - Data has been loaded into the new database without error

Payment Schedule

- Consider using payment **withholdings** as deliverables are accepted (also known as **retainage**).
 - If you want to do this the percentages of how much you will pay must be included in the mini-bid as well as details about when it will be released.
 - Note: The maximum withholding amount is **20%** for each deliverable.
- Consider including an incentive that if a contractor exceeds expectations by providing acceptable deliverables early, the payment of retainage will occur sooner.

Retainage Example

The State will hold back 10% of each implementation deliverable payment as retainage. This retainage shall apply only to implementation deliverables (year 1 deliverables). Upon completion of all implementation deliverables to the satisfaction of the State, all retainage withheld will be paid to the Contractor in full, subject to the terms and conditions of the contract. Contractor invoices shall reflect the total billed, total retainage and total due. Final implementation deliverable invoice shall reflect billing for all retainage and all retainage withheld.

Collect Mini-Bid Participation Interest Forms

- Consider surveying the contractors for interest in the project by using the optional **Mini-Bid Participation Interest Form** – helps narrow the bidder pool.
 - Find the form online:
www.ogs.ny.gov/purchase/snt/awardnotes/7360022772TemplatePage.pdf

Mini-Bid Participation Interest Form

Group 73600 - Award 22772
Project Based Information Technology Consulting Services (Statewide) Page 1 of 2

MINI-BID PARTICIPATION INTEREST

An Authorized User must read and understand the How to Use this Contract document, before using this form. Any substantial deviation in an Authorized User's released Mini-Bid from the descriptions provided to the Contractors through this Mini-Bid Participation Interest Form invalidates these results. Use this form only after project scoping and procurement strategy has been finalized. This is a non-mandatory process. This form must be sent to all Contractors in the applicable Lot. Contractors will send responses to the E-Mail included in the form below by the date and time indicated.

Lot Number	Estimated Project Value Range
Lot 1 Limited to NYS MWBEs, NYS SDVOBs, and NYS SBs	Up to \$200,000
Lot 2	\$200,001 - \$7,500,000
Lot 3	\$7,500,001 - \$25,000,000

PROJECT INFORMATION

TITLE: _____

Mini-Bid Number: _____ Response Due Date: _____ Time: _____

E-Mail to Return Responses to: _____

Lot Being Solicited: Lot 1 (up to \$200,000) limited to MWBE, SDVOB, and SB Lot 2 (\$200,001-\$7,500,000) Lot 3 (\$7,500,001 - \$25,000,000)

PROJECT DESCRIPTION

This section sets forth specific information about the proposed project and must include information about the general type of work, estimated timeline and any specific skill sets needed (such as specific programming language or PJI method). The Authorized User may include an estimated value of the project or a not to exceed amount. The Authorized User must carefully assess the estimated value in order to properly determine which Lot is applicable. Failure to survey the correct Lot invalidates the survey results.

Change Your Project Budget or Duration

Here's how you can make adjustments to your PBITS project.

Increasing Project Budget

- Called a budget enhancement, you can include a 10% increase in project budget.
- Remember that the total project costs cannot exceed the lot.
- Use the Enhancement Request Template to make this change.

No Cost Change Requests

- You may amend your scope of work if it does not change the deliverable at no cost to you.
- Can be used to you increase project duration. Remember the total duration must be 36 months or less.
- Use the No Cost Change Request Template to make this change.

Enhancement Request (Project Budget)

08/28/15 Page 1 of 2

Enhancement Request Template

Enhancements refer to additional functionality and deliverables unknown to the Authorized User at the time of Mini-Bid release. An Authorized User is permitted to include an enhancement budget, as included in the Mini-Bid (up to 10%). The total cost of the project, including the enhancement budget, shall not exceed the Lot threshold from which the award was made. Written approval is required from both the Contractor and the Authorized User for the enhancement request.

No Cost Change Request

05/28/15
Page 1 of 2

No Cost Change Order Request Template

The Authorized User reserves the right to reasonably amend a Fixed-Price Deliverable, without a cost increase, provided the Amendment does not materially change the scope of the Deliverable. Although the Authorized User has endeavored to identify the many tasks associated with a Fixed-Price Deliverable (Tasks), additional Tasks which can reasonably be anticipated to carry out the Deliverable shall be within the scope of the Deliverable, and shall not result in a cost increase. Written approval is required from both the Contractor and the Authorized User regarding the no cost change order.
