When submitting your agency's/building's fuel requirements, please pay close attention to the following:

1. **Make sure your contact information is current.**
Please review the information associated with your delivery site and update it if necessary. Include anything that is missing (including phone numbers and email addresses) and remove information of any person who no longer works at the delivery site. If there are issues with your filing or in awarding a contract for your county, Procurement Services will be unable to contact you if the information is out of date, which could result in your requirements being omitted from the delivery schedule and the final award.
2. Make sure information for tanks, requirements and locations is accurate.
3. Be aware that minimum delivery quantity must be 150 gallons in accordance with contract terms.
4. All required volumes must be submitted in **GALLONS**.
5. Enter only one year (12 months) volume for each fuel type you require.

By filing your fuel requirements, you are giving consent to OGS Procurement Services to award contracts on behalf of your facility for the full contract period.
