OGS Project # 951, IBNYS item 740 series ANSI 3 Three-Season Jacket

The product being offered is an ANSI Class 3 High Visibility double jacket, an ANSI 3 shell, with an ANSI 3 liner. It can be worn as a shell only in rain or wind, as fleece liner only in dry cool weather, and together as a winter storm jacket. Employees who are blind will be assembling the liner jackets into the shell jackets. They will then fold and pack them for shipment to the customer. The direct labor steps for this product will require 2 to 3 employees, and if sales reach estimates of approximately 1100 jackets, **total FTE (0.89 FTE)**, providing around 1700 labor hours and projected sales of **\$50,000**.

OGS Project # 963, NYSID A1599 New Balance 410W Cross Trainer Sneaker

This health-walking shoe is of lightweight construction and has an injection molded EVA insole and non-marking outsole to provide cushion, support and traction. The shoe has a leather upper with moisture wicking synthetic lining. Available in white only. Human Technologies Corporation will be the provider of this item which will be available to all State Agencies but meeting the specifications of New York State Department of Corrections and Community Supervision. Work for persons with disabilities will include the following: Receive bulk order shipment; check for damage and order contents; hand lace first 5 rows of eyelets with shoelaces to meet factory specifications; enter into inventory from order roster; pick and package sneakers to agree with individual facility location purchase orders; palletize sneaker boxes and stretch wrap and label for shipment. The raw material supplier for this item will be Anaconda Sports of Lake Katrine, NY. It is anticipated that this commodity will provide jobs for 1 or 2 individuals with disabilities. **Total disabled FTE is .12 and projected sales of \$37,600.**

OGS Project # 979, NYSID A1984 and A1985 Women's and Men's Leather Hi-Top Velcro Sneakers

This is a black leather high-top sneaker with Velcro closure, round toeline and rubber sole. The product will be provided by Lifespire / A.C.R.M.D Products Plus and is available to all State Agencies. Work for persons with disabilities will include: Receiving left and right sneakers in separate gaylords, pulling sneakers out and matching up sizes and widths; insert pairs into a bag; tape twice, make master carton, pack 12 pairs into carton and tape closed; place shipping label onto carton and palletize for shipment. The supplier for this product is Stealth Inc. of Brooklyn, NY. It is anticipated that this commodity will supply jobs for 1 or 2 individuals with disabilities. **Total disabled FTE is .102 and projected sales of \$49,999.**
