Update on HBITS

Presented by Marc Kleinhenz

For NYS Procurement Council

November 30, 2018

History

HBITS HISTORY

- In 2012, as part of Governor Cuomo's mandate to cut waste and improve Government efficiency, a contract was created to provide temporary Information Technology Staff Augmentation services.

HBITS HISTORY

- The intent of that contract was to provide technology staff augmentation on an hourly basis in a rapid and cost effective manner while also promoting Minority, Women-Owned and Small Businesses in the market space.

HBITS HISTORY

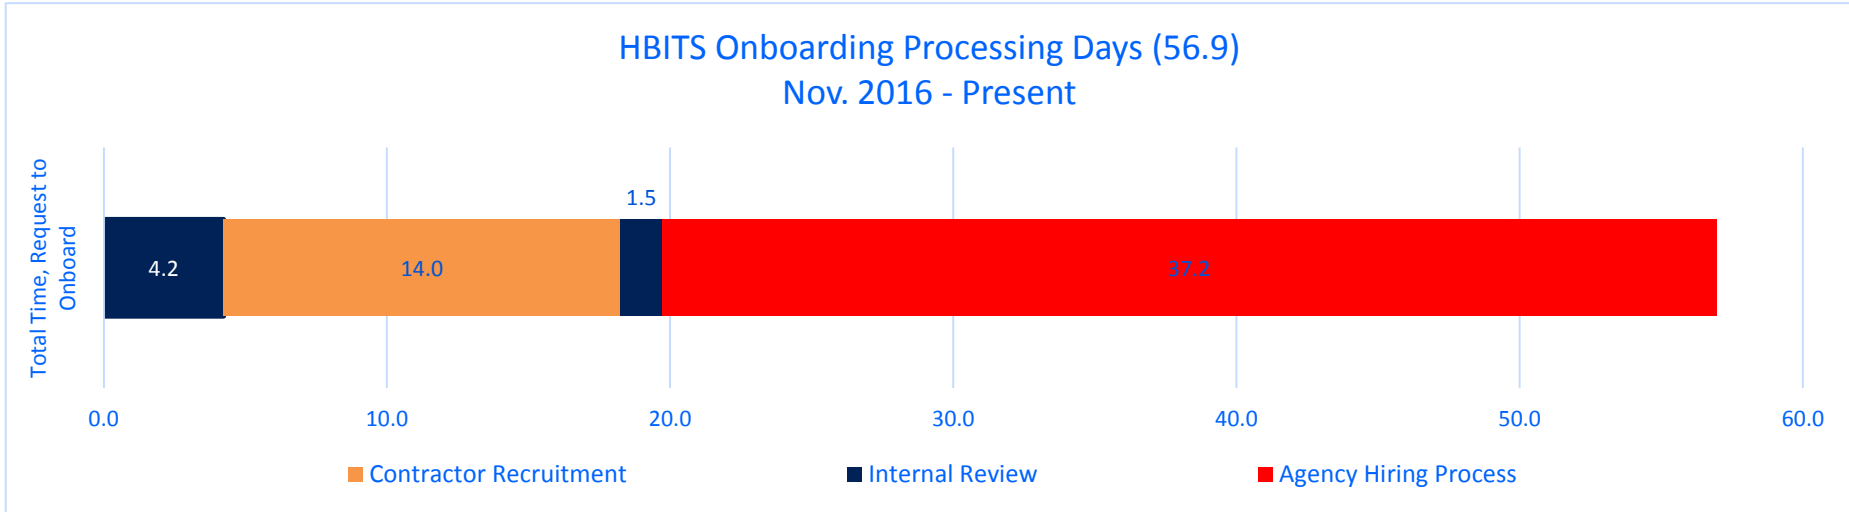

- During the first year of HBITS a savings of \$16m dollars was realized. This was largely due to formalized competition and standardized terms and conditions. The savings has continued with an annual average savings up to \$19.5m.

HBITS Metric Today

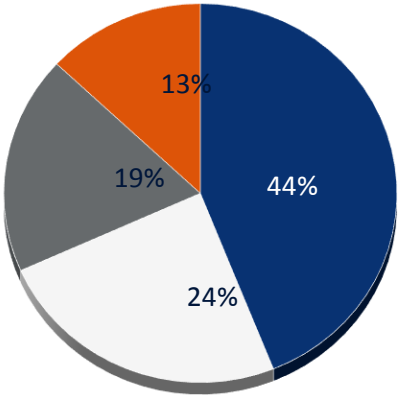

HBITS TODAY

As mentioned, HBITS had a goal of rapid deployment. Currently the HBITS onboarding process takes an average of 57 calendar days.
