

General Information Bulletin

**Subject: Aggregate Buy for ZEV Vehicles
(Alternate Energy Vehicles)**

DATE: September 18, 2019 **CL #:** 864 **GROUP #:** 40451

DESCRIPTION: SurveyMonkey to determine a need for an Aggregate Buy for ZEV Vehicles
(Alternate Energy Vehicles)

OGS CONTACTS:

Kelly Rothkopf | CMS | 518-486-1908 | kelly.rothkopf@ogs.ny.gov

CL-864 has been revised to provide authorized users additional time to complete the SurveyMonkey and this CL-864 supersedes the previous one dated August 22, 2019.

In recognition of Governor Cuomo's Charge NY initiative, which seeks to reduce energy-related greenhouse gas emissions by expanding the number of electric vehicles and charging stations in New York State, OGS Procurement Services is conducting a survey to determine if there is a need for an aggregate buy for ZEVs on behalf of OGS authorized users.

For the purposes of this survey, ZEVs include compact cars, sedans, crossover sport utility vehicles and mini-vans that are either battery electric vehicles (BEVs), which are fully electric and do not have a backup gasoline powered engine, or plug-in hybrid electric vehicles (PHEV), which have a limited electric range and have a backup gasoline engine for additional range.

Please assist us in determining the demand for an aggregate buy by completing the survey and providing information on the types and quantities of ZEVs that your organization is planning on purchasing.

It's important for us to understand your perspective, and we invite you to please take our survey no later than Friday, October 4, 2019 by clicking the link below.

We welcome your feedback and thank you for your time. If you have any questions or would like to provide additional information regarding ZEVs, please contact Kelly Rothkopf at: kelly.rothkopf@ogs.ny.gov.
