Application for Eligibility to Participate in the NYS Contract Extension Program

State agencies, local governments, political subdivisions and others authorized by law interested in participating in the New York State contract extension program should register with OGS by completing and submitting this application. See return instructions below. Following OGS review and approval, the information will be placed in a database used to confirm your eligibility.

OGS contract information is available on the Internet at ogs.ny.gov/procurement. The OGS New York State Procurement Web Page provides a variety of simple search tools to quickly and efficiently provide the most up-to-date contract information. OGS' Purchaser Notification Service (PNS) will allow you to register on-line to receive email notices about contract awards and other important procurement information. You may sign up for as few or as many contract areas that are of interest to you. Unlike the former system in which only one location received all contract information, and was responsible for managing and distributing the paper, this system allows for multiple registrations affording customization among registrants to select only those contracting areas of interest to them. PNS also permits instant changes to registrant profiles and selections.
